

MD. ABU SAEED

Frontend Developer

abusaheed0@gmail.com | +8801719036590 | Dhaka, Bangladesh | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

CAREER OBJECTIVE

Full-Stack MERN developer experienced in React, Next.js, Node.js, and MongoDB. Passionate about building secure, high-quality web applications and eager to contribute to a collaborative team while growing professionally.

TECHNICAL SKILLS

Frontend: HTML5, CSS3, Tailwind CSS, JavaScript (ES6+), React.js, Next.js

Backend: Node.js, Express.js, MongoDB, Better-Auth

Tools: Git, GitHub, Figma

PROJECTS

Tiles-Gallery — A full-stack tile browsing and showcase platform with dynamic listings and responsive design.

Tech Stack: Next.js 15, Tailwind CSS v4, MongoDB, Node.js, Express.js, Better-Auth

- Developed a full-stack tile-browsing gallery application with dynamic product listings, category filtering, and a responsive UI optimized for all screen sizes. Integrated Better-Auth to manage secure user authentication for the platform.
- Implemented a REST-ful backend with Express.js and MongoDB for efficient data storage and retrieval of tile products.
- Utilized Next.js server-side rendering (SSR) and static generation for fast page loads and improved SEO performance.

KinKeeper — A personal relationship tracker to stay intentionally connected with the people who matter most.

Tech Stack: Next.js 14, Tailwind CSS, DaisyUI, Recharts, React Context API

- Built a personal relationship management app that tracks interaction history with friends and contacts, including call, text, and video logs, helping users stay consistently connected.
- Developed a Friend Dashboard displaying profile cards with real-time connection status (On-Track, Almost Due, Overdue) and days since last contact, enabling users to prioritize outreach.
- Integrated a Friendship Analytics feature using Recharts to visualize communication habits through an interactive Pie Chart breakdown by interaction type.

DigiTools — An all-in-one platform consolidating essential digital utilities into a single, fast, distraction-free interface.

Tech Stack: React.js, Tailwind CSS, JavaScript (ES6+)

- Built a modern all-in-one web platform that consolidates multiple digital utilities — including converters and generators — into a single, fast, and distraction-free interface for developers, students, and everyday users.
- Engineered real-time output functionality across all tools, delivering instant results without page reloads and significantly improving overall user productivity.
- Designed a clean, fully responsive UI with Tailwind CSS ensuring a consistent and accessible experience across all screen sizes and devices.
